TOTAL CREDITS

* A student may audit a course with the permission of their advisor and payment (if applicable) of an audit fee. An auditor does not receive a grade; an AU is recorded in place of the grade if the auditor has maintained a satisfactory course attendance (75% class attendance) and completed the appropriate assignments. If the student does not meet requirements, a final grade of F may be awarded. No changes in registration from credit to audit or from audit to credit will be permitted after the add/drop period.

I would like to take the following courses for continuing education units (CEU). I understand there will be no credit hours awarded and permission of the academic unit head is needed before enrolling in the class.

Students are responsible for meeting all published prerequisite requirements for their registered courses to ensure they have the background necessary for successful performance. A student who fails or drops a prerequisite course after registration for the first term, must, in consultation with their advisor, submit a Change in Registration Status form to add the prerequisite course.
